Future-Proof Your Business : Mastering Sustainable and Green Finance

This 7-hour training equips Malaysian managers from SMEs, corporates, and financial institutions with foundational knowledge of sustainable and green finance. Through interactive sessions, it covers ESG concepts, policymakers, and recent developments, culminating in case study analysis to propose ESG strategies aligned with Malaysia's net-zero by 2050 goal, enhancing competitiveness via market access and cost savings.

Objective

1. To identify key elements of sustainable and green finance, and green finance instruments to support Malaysia's net-zero by 2050 goal.
2. To learn how to apply sustainable and green finance concepts to business operations, integrating ESG strategies for enhanced competitiveness.

Learning Outcomes

1. Participants will identify the different instruments and benefits in Malaysian and global contexts.
2. Managers will analyze case studies to propose future-ready strategies aligned with Malaysia's standards.
3. Attendees will gain confidence to align their organizations with Malaysia's sustainable finance ecosystem
